- Dr. Heather Wilsing
- Phone #: 920 - 452 - 2882

Emergency Contact:

- Mary Landgraf (Handler's Mom)
- Phone #: 920 - 287 - 8703

PERSONALITY

I am curious by nature and love to investigate sounds. I love walks and my mom. I can enjoy fetch and tug! My favorite weather is snow! I love any kind of treats but my favorite are the human safe foods like fruit, veggies, and plain pasta. I also loved cooked meat and salmon flavored alternative rawhides. My favorite place to "work" is at the movies. I love car rides and water/swimming.

HEALTH & GROOMING

My wavy hair is fluffy and so easy to take care of. My poodle side made it so that I don't shed much and I have less chances of setting off allergies. My Bernese mountain side gave me my black and white coloring. I don't mind getting my hair combed since after comes peanut butter flavored toothpaste.

I enjoy baths and don't even mind when my mom cuts my hair. I was spayed and given all the shots I needed. I even take a monthly chewable preventative for fleas, ticks, and worms. I just think it's another treat! I also think my multivitamin for joint and heart health is also a treat and sit eagerly for it.

ABOUT THE HANDLER / OWNER

My mom's name is Angel and she is 28 years old. I went home to her at 9 weeks old and we have been inseparable ever since. She made the choice that I was the best thing in helping her with multiple psychiatric conditions. Despite everything she doesn't let life slow her down and I am proud to be a part of her fast paced, adventurous life.
